About us

Qivalis B.V. (www.qivalis.eu) is developing a fully regulated, euro-denominated stablecoin backed by a consortium of 37 leading European banks. Domiciled in Amsterdam and pursuing Dutch Central Bank (DNB) authorisation as an Electronic Money Institution (EMI), Qivalis is planning to issue their euro stablecoin under a full reserve model, serving as the cornerstone of institutional-grade on-chain payment and settlement infrastructure. The token will be distributed through Qivalis' trusted partners. By bridging traditional finance and on-chain innovation, Qivalis will deliver security, transparency, and trust to Europe's evolving digital economy. Qivalis plans to launch in the second half of 2026.
